CHICAGO GRAIN.
CHICAGO, May 12.—Fresh strength developed in the corn market today, and the highest prices yet this season were touched by the May delivery. Absence of any aggressive selling had much to do with the advance. Unsettled weather counted also as a bull factor. Opening quotations, which ranged from 1/2c decline to 1/2c gain, with July \$1.75 1/2 to \$1.75 3/4, and September \$1.62 1/2 to \$1.63 1/4, were followed by material upturns all around and then something of a setback. Oats were governed by the action of corn. After opening quotations to 1/2c higher, including July at 93 1/2 to 94c, the market continued firm. Provisions hardened a little with rain and hogs. Demand, though, was native.

STOCKS LOSE IN HEAVY SELLING

Uncertain Money Situation
With Higher Rates Has
Depressing Effect

NEW YORK, May 12.—The uncertain money situation, as indicated by yesterday's 10 per cent rate for call loans, accounted for the further irregularity of prices at the latest opening of today's stock market. Independent steels, sugar and low-grade oils were moderately higher, but motors, equipments and shippings again tended downward. Pressure was directed against Studebaker, American Car and Atlantic-Gulf, in which early losses extended to a point. Dealings in rails were light at nominal changes.

Shippings, especially Pacific Mail and Atlantic-Gulf, led the market to higher levels in the first hour. Rails notably coaled, also responded to a moderate inquiry, but the list began to sag when steels, motors, leather and textiles became the center of another selling movement. American Woolen lost almost 4 points and reactions of 1 to 3 points accompanied light offerings on other industrials and specialties. Out of town advices dealing with the motor and affiliated trade were not encouraged and the Mexican situation, provoked further liquidation. Signs of tighter money were foreboded by the eight per cent opening rate for demand loans. Oils were bid up at midday, Royal Dutch and Mexican Petroleum displaying marked strength with some of the cheaper petroleum. Other leaders rallied irregularly, only to fall back again when call money advanced to 9 per cent. The motor group was weakest on the further reaction.
